## Appendix A

### WORK PROCESS SCHEDULE

OCCUPATION TITLE: **Woodwork Manufacturing Specialist**

O\*NET-SOC CODE: **51-7042.00**

RAPIDS CODE: **0321CB**

This schedule is attached to and a part of these Standards for the above identified occupation.

#### 1. APPRENTICESHIP APPROACH

☐ Time-based

☒ Competency-based

☐ Hybrid

#### 2. TERM OF APPRENTICESHIP

The term of the apprenticeship is **Competency-based**, supplemented by the minimum required **832.5** hours of related instruction.

#### 3. RATIO OF APPRENTICES TO JOURNEYWORKERS

The apprentice to journeyworker ratio is: **1** Apprentice to **1** Journeyworker.  
The Sponsors employs **3** Journeyworkers.

#### 4. APPRENTICE WAGE SCHEDULE

Apprentices shall be paid a progressively increasing schedule of wages based on either a percentage or a dollar amount of the current hourly journeyworker wage rate, which is: **\$20.00**

##### **Wage Schedule:**

Starting wage: **\$13.00**

Ending wage: **\$17.00**

Wages Paid During RTI: \_\_\_Yes ☒No

#### 5. PROBATIONARY PERIOD

Every applicant selected for apprenticeship will serve a probationary period of **9 months**.

#### 6. SELECTION PROCEDURES

##### **Step 1: Identification of Need**

- Employer determines hiring need.
- Employer develops/adjusts apprenticeship job description and application.

## **Step 2: Job Posting**

- The job opportunity is communicated/posted to using a variety of methods, including but not limited to: contacting local college manufacturing program and other local educational institutions, workforce development agency service centers, local community centers, online job boards.

## **Step 3: Candidate Selection**

- Interested candidates must request and submit a formal employment application.
- Employer will review the applications of all candidates that have applied for the open position.
- Candidates meeting minimum requirements including being able to pass a background check and drug test may be selected for interview.
- Employer will conduct interviews and select the applicant who is the best fit for the open position.

## **Step 4: Offer of Employment**

- Upon selecting a desired apprentice candidate, Employer will compose and make an offer of employment through a “conditional job offer” letter. Conditions of employment include but are not limited to:
  - Candidate eligibility for employment in the United States. The Immigration Reform and Control Act of 1986 requires Employer to verify candidate identity and eligibility for employment in the United States. So that Employer may satisfy those requirements, candidates must provide two forms of proper identification (most common are a driver’s license plus a Social Security card or birth certificate) on the first day of employment.
  - Ability to perform the essential job functions of the “DOL Apprentice” position, either with or without accommodation.
  - Passage of drug, background and driver’s license checks.
- If the offer is not accepted, Employer will repeat steps 2 and 3 as needed

## WORK PROCESS SCHEDULE

OCCUPATION TITLE: **Woodwork Manufacturing Specialist**

O\*NET-SOC CODE: **51-7042.00**

RAPIDS CODE: **0321CB**

## WORK PROCESS SCHEDULE

O\*NET-SOC Code: 51-7042.00

**Woodwork Manufacturing Specialist**  
(Existing Title: Machine Setter (Woodwork))

RAPIDS Code: 0321CB

Anticipated completion of apprenticeship program is three (3) years

### Job Function 1: Communicates effectively and professionally with colleagues, both internally and externally

| Competencies   | Core or Optional | RTI | OJT |
|--|------------------|-----|-----|
| A. Reliably follows others' instructions   | Core             |     |     |
| B. Willingly asks questions about things not fully understood  | Core             |     |     |
| C. Works with due regard for others' safety  | Core             |     |     |
| D. Demonstrates a working knowledge of the company policy manual   | Core             |     |     |
| E. Establishes a system of maintaining appropriate notes and reminders and completes any required logs, calibration records, etc.          | Core             |     |     |
| F. Ensures proper communications between previous and next shifts, with operations and supervision   | Core             |     |     |
| G. Identifies problems and changes that could lead to problems through the exchange of information with operators, supervisors, and others | Core             |     |     |
| H. Establishes trust and rapport with operators, supervisors, and others   | Core             |     |     |

### Job Function 2: Demonstrates both effective time and project management

| Competencies   | Core or Optional | RTI | OJT |
|--|------------------|-----|-----|
| A. Develops a project plan and tracks progress against the plan, flagging issues and delays as they occur  | Core             |     |     |
| B. Develops project contingency plans to respond to unexpected delays and costs, and professionally communicates with customers about alternatives as needed | Core             |     |     |

|  |                         |            |            |
|--|-------------------------|------------|------------|
| C. Verifies in-field measurements against architectural drawings to produce accurate shop drawings   | Core                    |            |            |
| D. Estimates project costs and timelines, identifying project assumptions and resource costs (supplies, labor)   | Optional                |            |            |
| E. Computes material quantities, sizes, weights, and costs   | Optional                |            |            |
| F. Develops a project budget based on an approved quote and tracks project progress against the budget, flagging issues and unexpected costs as they arise   | Optional                |            |            |
| G. Develops a professional quote for a project and shares with a potential customer for review and approval  | Optional                |            |            |
| <b>Job Function 3: Protects self and other workers from accidents and injuries</b>   |                         |            |            |
| <b>Competencies</b>  | <b>Core or Optional</b> | <b>RTI</b> | <b>OJT</b> |
| A. Follows employer safety requirements, including the consistent and proper use of protective clothing and personal safety devices  | Core                    |            |            |
| B. Maintains a clean and orderly workplace, storing chemicals and corrosive or combustible materials properly and disposing of waste products according to company policies and local/federal laws and regulations | Core                    |            |            |
| C. Safely uses, stores, and maintains all tools/equipment properly to eliminate injury, electrocution, trip hazards, or damage   | Core                    |            |            |
| D. Lifts supplies and materials using proper body mechanics and assistive devices, such as hoists, lifts, forklifts, and straps  | Core                    |            |            |
| E. Reports and responds promptly, safely, and appropriately to emergency or hazard situations and troubleshoots any issues that may arise  | Core                    |            |            |
| F. Uses lock-out/tag-out procedures when working with appropriate tools and equipment  | Core                    |            |            |
| <b>Job Function 4: Demonstrates basics of measurement, materials, and safety of products and parts</b>   |                         |            |            |
| <b>Competencies</b>  | <b>Core or Optional</b> | <b>RTI</b> | <b>OJT</b> |
| A. Uses and applies contextual mathematics   | Core                    |            |            |
| B. Demonstrates layout processes   | Core                    |            |            |
| C. Uses proper material-processing techniques  | Core                    |            |            |

| D. Understands material properties   | Core             |     |     |
|--|------------------|-----|-----|
| <b>Job Function 5: Uses print reading and CAD software to develop shop drawings</b>                          |                  |     |     |
| Competencies   | Core or Optional | RTI | OJT |
| A. Identifies symbols, notations, and lines to industry standards  | Core             |     |     |
| B. Determines dimensions, critical features, and tolerances on architectural/shop drawings                   | Core             |     |     |
| C. Interprets architectural/shop drawings to industry standards  | Core             |     |     |
| D. Uses CAD software to produce and edit architectural/shop drawings   | Core             |     |     |
| E. Demonstrates competency in primary drafting procedures  | Core             |     |     |
| F. Creates architectural/shop drawings using a variety of CAD software tools and functions                   | Core             |     |     |
| G. Creates annotative text and dimension styles for use on floor plans, elevations, and construction details | Core             |     |     |
| H. Creates and modifies CAD blocks to use on floor plans, elevations, and construction details               | Core             |     |     |
| <b>Job Function 6: Shows competency for millwork techniques and fabrication</b>                              |                  |     |     |
| Competencies   | Core or Optional | RTI | OJT |
| A. Processes materials safely and effectively, taking into account material characteristics                  | Core             |     |     |
| B. Demonstrates the proper selection, identification, and installation of tools                              | Core             |     |     |
| C. Safely and properly sets up and operates machines/tools   | Core             |     |     |
| D. Performs bench operations safely, effectively, and accurately   | Core             |     |     |
| E. Installs finished products  | Optional         |     |     |
| <b>Job Function 7: Performs operation and maintenance of CNC and mechatronics operations</b>                 |                  |     |     |
| Competencies   | Core or Optional | RTI | OJT |
| A. Explains the proper codes and functions   | Core             |     |     |
| B. Demonstrates how to write a G code program in order to machine a basic cylindrical part on the CNC lathe  | Core             |     |     |
| C. Calculates the tooling, coordinates, and toolpaths necessary to machine the part on a CNC lathe           | Core             |     |     |

|   |                         |            |            |
|---|-------------------------|------------|------------|
| D. Identifies different aspects of the machine  | Core                    |            |            |
| E. Applies the Cartesian coordinate system and polar coordinates for a milling process  | Core                    |            |            |
| F. Locates and identifies all components of the robotic cell, including all equipment, operator interfaces, tooling, perimeter guarding, safety devices, etc. | Core                    |            |            |
| G. Understands and practices all safety considerations related to operating the robotic cell  | Core                    |            |            |
| H. Demonstrates the proper power-up, shut-down, and lock-out sequence of the robotic cell or other equipment  | Core                    |            |            |
| <b>Job Function 8: Performs coating/finishing operations</b>  |                         |            |            |
| <b>Competencies</b>   | <b>Core or Optional</b> | <b>RTI</b> | <b>OJT</b> |
| A. Recognizes proper surface preparation  | Core                    |            |            |
| B. Understands chemical properties of coating and surface materials and their interactions with each other  | Core                    |            |            |
| C. Performs proper safety and workplace protocols in spray booth  | Core                    |            |            |
| D. Reads and understands safety data sheets   | Core                    |            |            |
| E. Demonstrates proper handling, storage, and disposal of finishing materials   | Core                    |            |            |
| <b>Job Function 9: Performs wood-processing operations</b>  |                         |            |            |
| <b>Competencies</b>   | <b>Core or Optional</b> | <b>RTI</b> | <b>OJT</b> |
| A. Performs machine operations  | Core                    |            |            |
| B. Selects proper tooling/machinery to safely and accurately perform all required processing operations within the specified tolerances on a part print       | Core                    |            |            |
| C. Calculates cutting speeds and feeds and applies these calculations while performing required operations  | Core                    |            |            |
| <b>Job Function 10: Problem solves, diagnoses, and troubleshoots effectively</b>  |                         |            |            |
| <b>Competencies</b>   | <b>Core or Optional</b> | <b>RTI</b> | <b>OJT</b> |
| A. Traces defects to the originating sections of their root causes, such as verifying in-field measurements against architectural drawings                    | Core                    |            |            |
| B. Uses critical and logical thinking on a per project basis to analyze, measure, and record  | Core                    |            |            |

|   |      |  |  |
|---|------|--|--|
| to improve manufacturing/installation process   |      |  |  |
| C. Proposes a remedy, having been given the authorization to implement the process improvement    | Core |  |  |
| D. Conducts a triage level of troubleshooting and communicates findings to appropriate individual | Core |  |  |
| E. Performs daily, weekly, and monthly preventative maintenance responsibilities                  | Core |  |  |

| U.S. Department of Labor<br>Employment and Training<br>Administration, Office of<br>Apprenticeship (OA)<br>Washington, D.C. 20210 | Distribution:<br>A-541 Hdqtrs<br>A-544 All Field Tech<br>A-547 SD+RD+SAA+;<br>Lab.Com | <b>Subject:</b> Revision to an<br>Existing Apprenticeable<br>Occupation, utilizing the<br>Competency-based<br>Occupational Framework for<br>Woodwork Manufacturing<br>Specialist<br><br><b>Code:</b> 200.1 |
| Symbols: DRAP/NSL   |   | <b>Action:</b> Immediate   |

**PURPOSE:** To inform the staff of OA, State Apprenticeship Agencies (SAA), Registered Apprenticeship program sponsors, and other Registered Apprenticeship partners of the approval of the new Competency-based Occupational Framework (CBOF) for the occupation of Woodwork Manufacturing Specialist (Existing Title: Machine Setter (Woodwork)).

Woodwork Manufacturing Specialist  
(Existing Title: Machine Setter (Woodwork))  
O\*NET-SOC Code: 51-7042.00  
RAPIDS Code: 0321CB  
Type of Training: Competency-based

**BACKGROUND:** The National Office has approved a new Competency-based Occupational Framework (CBOF), developed in partnership with the Urban Institute. This CBOF has met industry standards and approval; it covers job titles and occupational pathways, related functions and performance criteria, as well as academic, workplace and personal competencies for job success. While use of CBOFs in developing standards utilizing the competency-based training approach is voluntary, no additional vetting of a Work Process Schedule (WPS) utilizing the CBOF should be required where a program aligns to the occupational framework described in a CBOF, beyond the basic requirements set forth in 29 CFR Part 29. While on-the-job learning (OJL) is ordinarily outlined in the WPS, sponsors who utilize a CBOF must develop the Related Instruction Outline, which should be included in the standards. The OA Administrator approved this occupation on July 15, 2020.

Woodwork manufacturing specialists:

- Work in the commercial and residential industries of the private sector;
- Operate computer-controlled machines or robots and/or highly-skilled bench operations to perform several machine functions on wood pieces;
- Ensure the smooth operation of the controlled manufacturing equipment at their worksite;
- Help make sure that industrial machinery and equipment and the quality of hardware they produce are maintained at the highest possible level, ensuring the productivity and safety of the entire production team; and

- Oversee quality assurance, verification, and inspection of equipment.

Within certain limits, the sponsors of CBOF apprenticeship programs are permitted to customize the job functions or competencies contained in a CBOF for Woodworking Manufacturing Specialist occupation.

However, OA encourages the use of all core competencies to be included in the approved WPS.

**ACTION:** OA staff should familiarize themselves with this bulletin and the attached CBOF as a source for developing apprenticeship standards and/or providing technical assistance.

If you have any questions, please contact Natalie Linton, Program Analyst, Division of Registered Apprenticeship and Policy at (202) 693-3592.

**NOTE:** This bulletin is being sent via electronic mail.

# Federal State Offices of Apprenticeship

Source: <https://www.dol.gov/agencies/eta/apprenticeship/contact/state-offices#IL>

- Alaska (AK)

**John Hakala**

State Director  
USDOL/ETA/OA  
605 W. 4th Avenue, Room G-30  
Anchorage, AK 99501  
Tel: (907) 271-5035  
E-Mail: [Hakala.John@dol.gov](mailto:Hakala.John@dol.gov)

- Arkansas (AR)

**Lester 'Lee' Price**

Acting State Director  
USDOL/ETA/OA  
700 West Capitol Street,  
Room 3507  
Little Rock, AR 72201-3204  
Tel: (501) 324-5415  
E-Mail: [Price.Lester@dol.gov](mailto:Price.Lester@dol.gov)

- California (CA)

**Nora L. Carlton**

California State Director  
USDOL/ETA/OA  
801 I Street, Suite 274  
Sacramento, CA 95814  
Tel: (916) 414-2389  
E-Mail: [Carlton.Nora@dol.gov](mailto:Carlton.Nora@dol.gov)

- Colorado (CO)

**Cynthia S. McLain**

State Director  
USDOL/ETA/OA  
U.S. Custom House  
721 19th Street, Room 468  
Denver, CO 80202-2517  
Tel: (303) 844-1620  
E-Mail: [McLain.Cynthia@dol.gov](mailto:McLain.Cynthia@dol.gov)

- Georgia (GA)

**William Kraus**

State Director

USDOL/ETA/OA

61 Forsyth Street SW, Room 6T100

Atlanta, GA 30303

Tel: (404) 980-7355

E-Mail: [Kraus.William@dol.gov](mailto:Kraus.William@dol.gov)

- Iowa (IA)

**Greer Sisson**

State Director

USDOL/ETA/OA

210 Walnut Street, Room 715

Des Moines, IA 50309

Tel: (515) 284-4690

E-Mail: [Sisson.Greer@dol.gov](mailto:Sisson.Greer@dol.gov)

- Idaho (ID)

**Robert Snyder**

State Director

USDOL/ETA/OA

1387 S. Vinnell Way, #110

Boise, ID 83706

Tel: (208) 321-2973

E-Mail: [Snyder.Robert@dol.gov](mailto:Snyder.Robert@dol.gov)

- Illinois (IL)

**Kim Jones**

State Director

USDOL/ETA/OA

230 South Dearborn Street, Room 656

Chicago, IL 60604

Telephone: 312-596-5505

E-Mail: [Jones.Kimberly@dol.gov](mailto:Jones.Kimberly@dol.gov)

- Indiana (IN)

**John Delgado**

State Director  
USDOL/ETA/OA  
U.S. Courthouse  
46 East Ohio Street, Room 511  
Indianapolis, IN 46204  
Tel: (317) 226-7003  
E-Mail: [Delgado.John@dol.gov](mailto:Delgado.John@dol.gov)

- Michigan (MI)

**Russell Davis**

State Director  
315 W. Allegan, Room 210  
Lansing, MI 48933  
Tel: (517) 377-1747  
E-Mail: [Davis.Russell@dol.gov](mailto:Davis.Russell@dol.gov)

- Missouri (MO)

**Vacant**

USDOL/ETA/OA  
1222 Spruce St, Room 9.102E  
St. Louis, MO 63103

- Mississippi (MS)

**William Kraus**

Acting State Director  
USDOL/ETA/OA  
61 Forsyth Street SW, Room 6T100  
Atlanta, GA 30303  
Tel: (404) 980-7355  
E-Mail: [kraus.william@dol.gov](mailto:kraus.william@dol.gov)

- Nebraska (NE)

**Jim Wightman**

State Director  
USDOL/ETA/OA  
Central Park Plaza, South Tower  
222 South 15th Street, Suite 504C  
Omaha, NE 68102-1608  
Tel: (402) 221-3281  
E-Mail: [wightman.james.e@dol.gov](mailto:wightman.james.e@dol.gov)

- North Dakota (ND)

**Barry Dutton**

State Director

USDOL/ETA/OA

Federal Building, Room 334

304 E. Broadway

Bismarck, ND 58501-5900

Tel: (701) 250-4700

E-Mail: [Dutton.Barry@dol.gov](mailto:Dutton.Barry@dol.gov)

- New Hampshire (NH)

**Lauren Smith**

State Director

U.S.DOL/ETA/OA

Cleveland Building, Room 3503

55 Pleasant Road

Concord, NH 03301

Tel: (603) 225-1444

E-Mail: [Smith.Lauren.m@dol.gov](mailto:Smith.Lauren.m@dol.gov)

- New Jersey (NJ)

**Michael Blatt**

State Director

USDOL/ETA/OA

190 Middlesex-Essex Turnpike

Metro Star Plaza-Suite 201A

Iselin, New Jersey 08830

Tel: (732) 688-4236

- Wyoming (WY)

**Michael Ann Broad**

State Director  
USDOL/ETA/OA  
Federal Building, Room 205  
308 West 21st Street  
Cheyenne, WY 82001-3637  
Tel: (307) 772-2448  
E-Mail: [Broad.Michael@dol.gov](mailto:Broad.Michael@dol.gov)

**Draft of courses WMS apprentice might take at a local community college:**

Schoolcraft College Apprenticeship Program

**REGISTERED APPRENTICESHIP RELATED TECHNICAL INSTRUCTION (RTI) / CURRICULUM**

**Woodwork Manufacturing Specialist  
Competency Based Registered Apprenticeship**

Note: The Schoolcraft College Apprenticeship Coordinator will work with the appropriate company representative to establish specific courses which best serve the student's individual needs. The following courses are intended as a draft and an example of a course of study – courses may be deleted, or replaced with other options and in compliance with the Dept. of Labor's Office of Apprenticeship academic requirements.

| Credit Courses   |                 |  |            |              |
|--|-----------------|--|------------|--------------|
| PRE-REQUISITE  | COURSE          | TITLE  | Credit Hrs | Clock Hrs    |
| <b>COMPUTER AIDED DESIGN:</b>  |                 |  |            |              |
| none   | CAD 120         | Mechanical Blueprint Reading with Sketching  | 3          | 45           |
| CAD 120 and MATH 102 or 113  | CAD 130         | Geometric Dimensioning and Tolerance   | 3          | 45           |
| CAD 120  | CAD 140         | AutoCAD 2D Application   | 4          | 60           |
